

Working with a Bespoke Winery MSP is the Foundation for YOUR Continued Success!!!

Our company is one-of-a-kind. And, regardless of how many other wineries are out there, so is yours.

We've spent decades working with producers from the ground up. And we've come to understand that while there are many common technology challenges that wineries deal with - they need to be addressed with solutions that are specifically **UNIQUE** to you and your industry.

We've assembled a foundational set of applications that give you and your employees incredible power over your tech. Starting with a **FREE** business review and analysis - we can provide, among other things, network & computer management and monitoring, security & back up, and email management along with integrated commerce platforms.

Bottom line, we free up you and your staff to make great wine and provide experiences for your customers that will keep them coming back.

**Experience "IT" for yourself and meet the Grape Squad
at RGNV - April 8, 2025 • 1 PM**

RSVP your attendance by calling 585.233.7959 or email sam@wineryconnect.com.
Check out what we're up to at WineryConnect.com/LLevent or follow us on social media.

WINERYCONNECT
BESPOKE WINERY IT & COMMERCE

Join us for some savory snacks and wine as we introduce ourselves to Long Island.

WineryConnect and the Grape Squad were founded in the Finger Lakes wine region and have clients across the US. Among tech companies, we uniquely understand that the business of attracting customers and providing them with exceptional experiences has become critical to maintaining your business.

It's much, much more challenging than it used to be.

A robust, coordinated tech plan and state-of-the-art IT infrastructure and support can elevate those experiences and help keep your winery growing.

Join us and we'll show you how.
