

WineryConnect Offers A Complete Winery Solution

WineryConnect has Combined Revel Systems® and Nexternal™ along with the Grape Squad's Industry Expertise to Provide You with an End-to-End Platform that Meets Your Winery Needs

Full POS Capabilities

When you combine Revel's cloud-native POS platform with Nexternal, an eCommerce solution designed specifically for wineries, you equip your winery with every tool you need to improve operations and gain, retain and delight guests. Key functionalities include:

- Detailed inventory management
- Workforce management solutions
- Seamless toggling between restaurant and retail systems
- Multiple ways to pay
- Integrated online ordering
- And more

Everything You Could Want for Your Wine Club

Nexternal's eCommerce platform perfectly blends all of the essential features for a successful wine club. Through the software, club members can update their preferred shipping, billing, and credit card information online. Club member data and customer data is all housed in one location. Additionally, tracking information is automatically emailed to customers which reduces customer service calls. Here's a closer look at Nexternal's features:

- Support for multiple customer types
- Simplified addition of new club members
- Streamlined processing for club membership orders
- Easy creation of wine club shipment
- Full processing of wine club orders

Business Intelligence & IT Support by Real Humans

While creating a sound backbone for your business, technology alone can never solve all business problems. Your busy team members need real people they can call who know your business intimately. The WineryConnect Grape Squad has years of experience supporting staff and technology across the country.

They offer:

- Wine industry expert technical support
- Best practices regulatory reporting, excise tax generation, payments and more
- Data loading and cleaning from prior platforms
- Staff training and troubleshooting
- 24-hour help-desk based service

The Premier Integration for Your Winery

The WineryConnect Grape Squad reduces the distance between producers and consumers by pairing Revel with Nexternal along with expert winery business intelligence and IT. Together, these solutions offer a dynamic ecosystem for your winery. Handling the technical details from seed to sale, this integration allows you to focus on your core expertise: making great wine and engaging consumers.
